About This Game

Alteil: Horizons has the structure of a CCG and the flow of a unit tactics game.

- Collectible Card Game Structure -- collect cards, build decks and duel either PvP for ELO ranking or in single player adventure mode.
- Unit Tactics Game Flow -- Field units with resources, no randomly drawn hands. Units have HP, AT, DF, AGI, RNG and take turns, highest agility first. Pick from the unit's Action Menu -- Attack, Move, Rest, or use special abilities!

- Hybrid Tactical RPG / Card Dueling Game mechanics
- Collectible cards with full RPG-style stats, alternate art and story
- Story and Art contributions from famous names in the Japanese game industry
- Over 2000 pieces of gorgeous card art, with more added each month

- PVP dueling / ELO ranking
- Single player story mode with 20 adventures at launch -- more added every other month
- Duel replays and spectator system
- Core tournament-legal set ensures tight balance
- Card crafting and player marketplace

With a little help from our very supportive friends in the Japanese games industry, Alteil Horizons sports creative contributions from some old pros and big names:

Story and direction by

- TAKUJI ASANUMA, director of Star Ocean and Valkyrie Profile.

Art and design by...

- KATSUYA TERADA, concept artist of “The Legend of Zelda”
- HITOSHI YONEDA, lead artist of “The Secret of Mana”
- SHUNYA YAMASHITA, designer of “Final Fantasy X”
- YUJI KAIDA, franchise artist for Transformers, Godzilla and Macross

Four Gods sleep under the Kingdoms of Men...harness their power!

It is you who know the truth of this world. You are one of the chosen few who know of the four Ancient Gods – infinite beings forgotten by history. Each god’s Sphere of Influence still permeates this world -- all living things are subconsciously bound to one of them. Tapping into the Spheres of Influence, you summon and command the might of enormous monsters, epic heroes and arcane dragons to defeat your enemies!

Each duel brings new challenges, with the huge amount of cards available, you’ll always be up against strategies that push the limits of Alteil’s various gameplay mechanics – such as the day/night cycle and its effects on undead and lycanthropes, the Soul Card system that lets each player fine tune their Life Point total to better compliment rush or combo play styles, and the Revival system that turns extra copies of a unit in the deck into ‘extra lives’ for that unit on the field. Every match also yields exciting treasure drops, to help you build a vast card collection or just fine-tune and perfect your favorite decks!

In addition to completing a successful Kickstarter and presenting at the **Indie Megabooth** at PAX East 2014, we’ve been lucky enough to get some great press for Alteil: Horizons. Here’s what they’re saying:

- **Kotaku** praised the team of artists, saying “Alteil: Horizons is actually an all-stars kind of ensemble title.”

-
- **MMO Attack** focused on the game, saying “Horizons combines what players love from their favorite trading card games with RPG elements”
 - **Massively.joystiq** names Alteil a “contender in the ring” in the card combat genre against HEX and Hearthstone.
 - They also put Alteil at the top of their 2013 summer **list of crowd-funding projects** to watch!
 - **The Examiner** noted, what “sets this game apart from its rivals is the amount and quality of the game’s art.”
 - **JStationX** calls Alteil Horizons “the next best card-based RPG.”

Absolutely worth every dime. If you loved Myst, this game is a worthy little love-note to the genre. It's not nearly as vast or as deep as the Myst worlds, but one should remember this wasn't made by a huge development team with piles of money backing them. For being essentially a one man project, this game is positively amazing.. It's ok. Pretty simple but I like it. By the same group that brought you Football Girls: Dream Team, Speedy Girls takes the concept towards racing. Well, sort of. Still, you have to go through the Match-3 game (5 girls total) to get money\credits to upgrade your car. The point, of course, is to fine tune the car to win races. Winning a race unlocks another car for you to use. Aside from the matching the girl achievements, there are achievements for 1, 10, 20 and 30 races, fully upgrading your car, and talking to all the girls via the chat (which can be done after completing the fourth girl, as you can \u201cchat\u201d with the fifth girl then). Do note the chat is a bit\u2026 limited. As in, \u2019m not sure who came up with the responses\u2026

Suggest getting this on discount, but otherwise\u2026 you get what you paid for\u2026. This game is not an 4x game. The sense of humor in this reminds me of Stanley Parable, Accounting and Portal. I love it!

I do recommend but one thing. BUGS theres only I have discovered but its pretty frustrating. When I was minding my own buisness ingame then all out of nowhere the hotbar is gone then I cant see what I have in my inventory and I cant press bottouns like quitting or accepting a quest and I cant do my daily objectives so I end up having to shut off my computer and turn back on because of one single bug. so please fix this but everything else I love!. Priced at \$0.99 it is hard not to get your money's worth out of this. It is a graphically updated version of Qix that I had on the C64 many (many) years ago now. A simple premise but addictive nonetheless. It is a short game but would still serve as a quick and easy time-filler once you've beaten it.. if you are up for a 2-3 minutes long "experience" ended by an ear drum piercing scream look no further

trully the peak of modern horror. meh i liked it. This game is a mess right now, dont buy it full price just yet, wait until the price go down or the game get good
